

Gogo AVANCE L3 delivers affordable, customizable broadband connectivity to business aviation

January 9, 2018

Small, lightweight form factor ideal for light jets and turboprops

BROOMFIELD, Colo., Jan. 9, 2018 /PRNewswire/ -- Gogo Business Aviation today unveils Gogo AVANCE L3, an innovative new inflight connectivity system that delivers the benefits of the Gogo AVANCE platform to passengers and flight departments in a small, lightweight form factor, with the most affordable pricing options in business aviation. Gogo's (NASDAQ: GOGO) breakthrough technology platform lets users customize their inflight experience based on their unique needs, and can be installed on business aircraft of all types and sizes, but is an ideal solution for smaller aircraft including turboprops and light jets.

The Gogo AVANCE platform integrates a full range of Smart Cabin features, allowing passengers to simply and reliably access and use all available data, voice, maps, entertainment and cabin management system (CMS) services.

Starting today, with AVANCE L3 leveraging the AVANCE platform, an unparalleled level of flexibility is now at the fingertips of flight departments. The new system includes a built-in smart router and allows for a variety of service offerings to best fit a customer's needs. It's a new level of flexibility not seen before in business aviation that allows operators to tailor their passengers' experience. With AVANCE L3 they can control and manage the number of devices they allow to connect and can scale their configuration up or down seamlessly as needs change.

Using AVANCE L3, anyone onboard the aircraft can stay connected to email; send text messages and make voice calls with Gogo Text & Talk (service plan required); access their favorite flight apps such as moving maps, weather and flight information; or watch movies and TV shows using Gogo Vision (service plan required). For customers looking for full internet connectivity, AVANCE L3 can be enabled to connect to the Gogo Biz data network delivering a 3G experience. It's the ultimate in scalability and flexibility.

Three service offerings will be available to deliver performance and flexibility, while not breaking the budget.

| | |
|-------------|---|
| CORE | For customers primarily interested in email, voice and light internet browsing capabilities, Core enables up to five devices. Hourly and monthly service plans available. |
| PLUS | For customers looking for full internet connectivity in addition to email, Plus enables up to seven devices. Monthly service plans available. |
| MAX | Delivers similar capabilities that Plus does, but Max enables up to 25 devices. Monthly service plans available. |

"We designed AVANCE L3 to provide a robust, high-performance Wi-Fi experience at an affordable price that gives customers the flexibility to add or reduce system capabilities as their business needs evolve," said Mike Syverson, senior vice president of development for Gogo Business Aviation. "AVANCE L3 gives the ability to move seamlessly to different service offerings without being constrained by the hardware itself. It's the AVANCE software-centric solutions from the provider you trust."

Additional AVANCE L3 features include:

- 802.11ac dual-band (2.4GHz and 5.0GHz) for improved Wi-Fi performance
- Advanced router functionality
- Multi-bearer data and voice management
- Cabin management system (CMS) integration with many CMS systems

- Remote diagnostics and service activations and changes
- 4G/LTE terrestrial modem for free internet on the ground in more than 120 countries

Gogo is accepting orders now for AVANCE L3 with shipping expected to begin later in the first quarter of 2018.

The Gogo AVANCE L3 system operates over the proven Gogo Biz network which delivers a 3G experience, covering the United States and portions of Canada and Alaska. Thousands of business aviation travelers rely on this network every day to stay connected to their lives on the ground while they are in flight.

About Gogo

Gogo is the Inflight Internet Company. We are the leading global provider of broadband connectivity products and services for aviation. We design and source innovative network solutions that connect aircraft to the Internet and we develop customizable services for our aviation partners. Once connected, we provide industry leading reliability around the world. Our mission is to help aviation go farther by making planes fly smarter, so our aviation partners perform better and their passengers travel happier.

You can find Gogo's products and services on thousands of aircraft operated by the leading global commercial airlines and thousands of private aircraft, including those of the largest fractional ownership operators. Gogo is headquartered in Chicago, Ill., with additional facilities in Broomfield, Colo., and locations across the globe. Connect with us at business.gogoair.com.

Cautionary Note Regarding Forward-Looking Statements

Certain disclosures in this press release include "forward-looking statements" that are based on management's beliefs and assumptions and on information currently available to management. Most forward-looking statements contain words that identify them as forward-looking, such as "anticipates," "believes," "continues," "could," "seeks," "estimates," "expects," "intends," "may," "plans," "potential," "predicts," "projects," "should," "will," "would" or similar expressions and the negatives of those terms that relate to future events. Forward-looking statements involve known and unknown risks, trends and uncertainties, many of which may be beyond our control, that may cause Gogo's actual results, performance or achievements to be materially different from any projected results, performance or achievements expressed or implied by the forward-looking statements. Such risks, trends and uncertainties include those described under the heading "Risk Factors" in the Company's Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission ("SEC") on February 24, 2017 and its Quarterly Report on Form 10-Q for the quarter ended March 31, 2017 filed with the SEC on May 4, 2017. Forward-looking statements represent the beliefs and assumptions of Gogo only as of the date of this press release and Gogo undertakes no obligation to update or revise publicly any such forward-looking statements, whether as a result of new information, future events or otherwise.
