

Aeromexico Becomes First Airline to Commit to Gogo's Next Generation In-flight Connectivity Technology - 2Ku

August 26, 2014

ITASCA, Ill., Aug. 26, 2014 /PRNewswire/ -- Gogo (NASDAQ: GOGO), a leading global aero-communications service provider, announced today that it has signed a definitive agreement with Aeromexico, Mexico's global airline, to provide in-flight Internet and wireless in-flight entertainment service on at least 58 Embraer and Boeing 737 aircraft operated by Aeromexico. Gogo previously announced, in December 2013, that it had agreed on the principal terms and conditions with Aeromexico related to the service. As part of the definitive agreement, at least 20 of Aeromexico's 737 aircraft will receive Gogo's next generation in-flight connectivity solution – 2Ku. Aeromexico is the first airline to commit to 2Ku.

"We couldn't be more excited to work with Aeromexico to bring Gogo connectivity and Gogo's wireless in-flight entertainment solution - Gogo Vision - to Mexico and beyond," said Gogo's president and CEO, Michael Small. "Aeromexico's commitment to 2Ku is evidence of the advantages that 2Ku brings to the market – especially for aircraft that operate in tropical regions around the world."

The advantages of 2Ku are significant. Gogo believes that 2Ku is the fastest solution available in the marketplace and expects it to deliver peak speeds of more than 70 Mbps to the aircraft at launch and more than 100 Mbps to the aircraft when next generation satellites become available. The 2Ku antenna is two times more spectrally efficient than other antennas in the commercial aviation market, which makes it capable of providing more bandwidth at less cost.

2Ku's performance benefits will be even more dramatic in the tropical regions of the globe where the performance of other satellite solutions degrade significantly due to restrictions associated with operating at high skew angles.

Gogo expects both its connectivity service and Gogo Vision to be available to Aeromexico passengers beginning in the fourth quarter of 2015.

"As the airline that connects Mexico and Mexico with the world, we look forward to being the first Mexican carrier and the first in Latin America to offer our passengers in-flight Wi-Fi via Gogo, the leader in this space," said Aeromexico's CEO, Andres Conesa. "The decision to deploy 2Ku is a natural fit for many of our 737 aircraft and it assures that our passengers will have the latest technology available at launch."

Cautionary Note Regarding Forward-Looking Statements

Certain disclosures in this press release include "forward-looking statements" that are based on management's beliefs and assumptions and on information currently available to management. Most forward-looking statements contain words that identify them as forward-looking, such as "anticipates," "believes," "continues," "could," "seeks," "estimates," "expects," "intends," "may," "plans," "potential," "predicts," "projects," "should," "will," "would" or similar expressions and the negatives of those terms that relate to future events. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may

cause the Gogo's actual results, performance or achievements to be materially different from any projected results, performance or achievements expressed or implied by the forward-looking statements. About Grupo Aeromexico

Grupo Aeromexico, S.A.B. de C.V. is a holding company whose subsidiaries are engaged in commercial aviation in Mexico and the promotion of passenger loyalty programs. Aeromexico, the largest airline in Mexico, operates more than 600 daily flights from its main hub in Terminal 2 at the Mexico City International Airport. Its destinations network features more than 80 cities on three continents, including 47 destinations in Mexico, 17 in the United States, 11 in Latin America, three in Europe, two in Asia and one in Canada.

The Group's fleet of 115 aircraft is comprised of Boeing 787, 777, 767 and 737 jet airliners and next generation Embraer 145, 170, 175 and 190 models. In 2012, the airline announced the most significant investment strategy in aviation history in Mexico, to purchase 100 Boeing aircraft including 90 MAX B737 jet airliners and 10 B787-9 Dreamliners.

As a founding member of the SkyTeam airline alliance, Aeromexico offers customers 1,000 destinations in 178 countries served by the 19 SkyTeam airline partners rewarding passengers with benefits including access to 530 premium airport lounges around the world. Aeromexico also offers travel on its codeshare partner flights with Alaska Airlines, Avianca, LAN, TACA and TAM with extensive connectivity in countries like the United States, Brazil, Canada, Chile, Colombia and Peru. www.skyteam.com.
