

Duncan Aviation To Develop STCs For Gogo Business Aviation's 4G Service

October 19, 2016

Duncan Aviation - Experts At Wi-Fi Connectivity

LINCOLN, Neb. and BROOMFIELD, Colo., Oct. 19, 2016 /PRNewswire/ -- Duncan Aviation is your go-to team for installing Wi-Fi connectivity in your business aircraft, and as one of the leading certified Gogo (NASDAQ: GOGO) dealers, the company is excited to announce it will be installing the new Gogo 4G system when it's ready in the first half of 2017. With its three main facilities in Battle Creek, Mich., Lincoln, Neb., and Provo, Utah, and more than 24 Satellite Avionics Shops (www.DuncanAviation.aero/locations/#satellites) located at the busiest airports in the United States, you won't have to travel very far, either.

"Duncan Aviation's experience when it comes to Wi-Fi installations is unmatched in the industry and Gogo's 4G system will be a difference-maker for our clients who are thirsty for the higher-speed service," said Steve Elofson, Duncan Aviation Avionics Installation Sales Rep. "Our trained and experienced avionics technicians have installed more than 575 systems, and we're looking forward to certifying and installing the next generation of Wi-Fi solutions, including Gogo's 4G system and its next generation system in 2018."

Duncan Aviation, a full-service maintenance, repair and overhaul Gogo dealer, will develop 4G STCs for the Falcon 900 series, Bombardier Global Express series, Challenger 600 series and Gulfstream 200 aircraft. Duncan Aviation will participate as a partner for hardware sales and installations on other business aircraft as well.

"Duncan Aviation has installed hundreds of Gogo Biz in-flight connectivity systems in the last few years and is one of our most valuable partners," said Andy Geist, senior vice president of business aviation solutions for Gogo. "The Duncan Aviation brand is one of the most trusted in the industry and our partnership is critical as we continually look to provide the best in-flight connectivity experience possible."

Demand for Wi-Fi service continues to grow, and in addition to the STCs in development for Gogo 4G, Duncan Aviation holds Standard Type Certificates (STCs) for in-flight Wi-Fi for the following make/models:

- Hawker 750, 800A, 800XP, 850XP and 900XP
- Falcon 900EX, 2000 and 2000EX
- Cessna 525A, 525B, 680, 750, and 560XL
- Challenger 300, 601-3A/R, 604 and 605
- Global Express
- Global 5000 and 6000 and 7000 and 8000
- Learjet 45
- Embraer Phenom 300 and Legacy 600 and 650
- Gulfstream GIV and GV

For more information, visit Duncan Aviation at booth #3126 during this year's NBAA convention to be held Nov. 1-3 in Orlando, or watch for announcements at www.DuncanAviation.aero/nbaa. Duncan Aviation will also have a CJ3 with the Rockwell Collins Pro

Line Fusion flight deck upgrade near the National Aircraft Resale Association pavilion at the NBAA Static Display at the Orlando Executive Airport.

About Duncan Aviation

Duncan Aviation is an aircraft service provider supporting the aviation needs of government and business operators and other service providers. Services include major and minor airframe inspections, engine maintenance, major retrofits for cabin and cockpit systems, full paint and interior services and preowned aircraft sales and acquisitions. Duncan Aviation also has international aircraft components solutions experts available 24/7/365 at +1 402.475.4125 who can handle any aircraft system problem with immediate exchanges, rotables, loaners or avionics/instrument/accessory repairs and overhauls. Complete service facilities are located in Lincoln, Neb., and Battle Creek, Mich. Additional locations include Provo, Utah, and more than 20 other facilities strategically located throughout the United States to provide customers with local support and the quickest response to avionics, engine and airframe Aircraft On Ground (AOG) situations.

For more information about any of Duncan Aviation's services, call +1 402.475.2611 or visit www.DuncanAviation.aero.

About Gogo
