## **Gogo Galileo Tour Launches Nationwide**

*State-of-the-Art Mobile Demo Room Coming to a City Near You*

**BROOMFIELD, Colo. – Oct. 15, 2024** – Gogo Business Aviation (NASDAQ: GOGO) is launching a nationwide tour bringing its interactive [Gogo Galileo](#) experience to business aviation professionals across the United States.

The state-of-the-art mobile demo room was designed to give customers and business aviation professionals from across the industry the ability to experience Gogo Galileo, the company's Low-Earth-Orbit (LEO) satellite broadband solution built for any size business aircraft.

At each of the tour stops, participants can experience Gogo's high-speed, low-latency inflight connectivity solution via both the HDX and FDX antenna configurations – the more compact HDX, built to fit any size business aircraft from super light jets and turboprops to larger aircraft, and the larger FDX which delivers best-in-class performance for large-cabin jets.

Anyone attending will be given the opportunity to trial the inflight internet experience with both antenna configurations using their own devices and experience online activities such as video conferencing, live TV, streaming video, and more, just as they would in their own aircraft at 40,000 feet.

"For anyone curious what reimagined inflight Wi-Fi feels like, we invite you to come experience Gogo Galileo firsthand at one of our tour destinations," said Sergio Aguirre, president and chief operating officer for Gogo. "We'll show you what inflight Wi-Fi as fast or faster than your home or office is like and why Gogo Galileo is the right choice for you."

The traveling exhibit will debut at this year's National Business Aviation Association (NBAA) Convention & Exhibition Oct. 22-24 in Las Vegas at the static display AD\_325. Attendees can book their in-person experience at [www.gogoair.com/events/2024/nbaa-bace](http://www.gogoair.com/events/2024/nbaa-bace).

For anyone unable to attend NBAA-BACE, the Gogo Galileo tour will be traveling across the country through early March with stops scheduled at FBOs and airports. For the list of tour cities and locations and to RSVP for a particular stop for an exclusive in-person demonstration, visit [www.gogoair.com/galileo-on-tour](http://www.gogoair.com/galileo-on-tour).

### **About Gogo**

Gogo is a leading provider of broadband connectivity services for the business aviation market. We offer a customizable suite of smart cabin systems for highly integrated connectivity, inflight

entertainment, and voice solutions. Gogo's products and services are installed on thousands of business aircraft of all sizes and mission types from turboprops to the largest global jets, and are utilized by the largest fractional ownership operators, charter operators, corporate flight departments and individuals.

As of June 30, 2024, Gogo reported 7,031 business aircraft flying with its broadband ATG systems onboard, 4,215 of which are flying with a Gogo AVANCE L5 or L3 system; and 4,247 aircraft with narrowband satellite connectivity installed. Connect with us at [www.gogoair.com](http://www.gogoair.com).

### **Cautionary Note Regarding Forward-Looking Statements**

Certain disclosures in this press release include forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, without limitation, statements regarding our business outlook, industry, business strategy, plans, goals and expectations concerning our market position, international expansion, future technologies, future operations, margins, profitability, future efficiencies, capital expenditures, liquidity and capital resources and other financial and operating information. When used in this discussion, the words "anticipate," "assume," "believe," "budget," "continue," "could," "estimate," "expect," "forecast," "intend," "may," "plan," "potential," "predict," "project," "should," "will," "future" and the negative of these or similar terms and phrases are intended to identify forward-looking statements in this press release.

Forward-looking statements are based on our current expectations regarding future events, results or outcomes. These expectations may or may not be realized. Although we believe the expectations reflected in the forward-looking statements are reasonable, we can give you no assurance these expectations will prove to have been correct. Some of these expectations may be based upon assumptions, data or judgments that prove to be incorrect. Actual events, results and outcomes may differ materially from our expectations due to a variety of known and unknown risks, uncertainties and other factors. Although it is not possible to identify all of these risks and factors, they include, among others, our ability to effectively evaluate and pursue strategic opportunities.

Additional information concerning these and other factors can be found under the caption "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2023, as filed with the Securities and Exchange Commission (the "SEC") on February 28, 2024, and in subsequent Quarterly Reports on Form 10-Q as filed with the SEC on May 7, 2024 and August 7, 2024.

Any one of these factors or a combination of these factors could materially affect our financial condition or future results of operations and could influence whether any forward-looking statements contained in this report ultimately prove to be accurate. Our forward-looking statements are not guarantees of future performance, and you should not place undue reliance on them. All forward-looking statements speak only as of the date made and we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise.
