"Securing this latest round of financing is an important step in funding our growth and helps strengthen our overall financial position," said Norm Smagley, Gogo's executive vice president and CFO. "The new round of funding will help us continue to develop and operationalize our international expansion."

Gogo recently announced that it has been selected to outfit more than 400 aircraft with its Ku-band satellite connectivity services across several major airlines. Today, Gogo has its Air to Ground (ATG) solution installed on more than 1,850 aircraft across nine airlines, including approximately 160 aircraft installed with its next generation ATG technology – ATG-4.
